## How do we ensure our use of Sports Premium Funding helps create a sustainable offer?

To ensure our PE offer is sustainable, we need to be confident that if and when Sports Premium Funding stops or is removed, that we have a staff who deliver high quality PE sessions and are enthusiastic and confident in their delivery. As well as this, we must have robust systems in place so our children lead healthy lifestyles, make regular progress in PE and are physically active for at least 60 minutes per day.

We use a large proportion of our Sports Premium Funding to be part of the North West Leicestershire School Sports Partnership (NWLSSP - see website below)) - one of the most successful partnerships not only in Leicestershire but indeed the entire country.

Our membership ensures several things: our staff are supported in the delivery of high quality curriculum PE by professional coaches, are able to attend courses that enhance their professional development and are also able to seek advice from any of the staff from the NWLSSP swiftly.

In addition to this, as school PE Co-ordinator, I have access to a wide range of up-to-date resources, can liaise and share practise with other schools and can regularly keep up to date with curriculum changes. This information is vital in ensuring we, as a school, move with the times and give the children of Ellistown the best PE offer we can.

## How do we ensure we have an inclusive offer?

To be inclusive, we must ensure that we offer all children a positive experience of Physical Education and Physical Activity. To do this, the individual learner is at the centre of what we do in our curriculum. Children have the opportunity to take part in a curriculum that progresses their skills in a range of sports from football to dance, netball to gymnastics, athletics to swimming; they also have the chance to take part in many different extra-curricular activities and are able to compete on many different levels - in school and against other schools. In fact, in our vision statement, we want as many children to have represented Ellistown in an event as possible before they leave us at the end of Year 6.

Our aim in PE sessions is for the children to be active for the majority of the session, have fun and ultimately be successful in developing the skill/s they are learning. The more successful they are, the keener they will be to be more physically active. In our PE sessions we use the STEP approach which means children can practise skills and select their own level of challenge by modifying a task based on the space it takes place in (S), what the task is (T), the equipment they are using (E) and the role of the people in the task (P).

PE lessons are for everyone and there are numerous ways to keep children involved even if there is a physical impairment or an injury - altering tasks, playing inclusive sports and allowing children to be umpires/scorers/lead sessions are just a few ways all children can be involved. Staff have been on Inclusive PE courses to ensure best practise is shared.

## What do people think about PE at Ellistown?

I really like PE lessons at school because we get to learn lots of different sports. I really like the end of term competitions as well!

Archie (Year 6)

In our PE lessons we get to improve our teamwork skills which I really like. Sometimes, I find some PE difficult to do but I am always still involved because I help run activities and umpire games.

Jessica (Year 5)

There are lots of afterschool clubs that we get to go to and often they help us going to events. This year I went to Cross Country and really enjoyed trying to beat my personal best.

Honey (Year 3)

I have really enjoyed being a Sports Ambassador because it is really fun. I have been able to organise lunchtime activities and competitions. It has helped me with leadership skills.

Sean (Year 5)

"Ellistown are always enthusiastic at events and prepared. Additionally, they are active on social media supporting the NWLSSP events."

Lucy (NWLSSP)

"It's brilliant that there are lots of different opportunities for all children to participate in different sports both inside and outside of school. All children are challenged. Through PE, and wider school life, we also encourage children to be healthy and physically active"
